

Fertility Clinics

Maven is here to make navigating your fertility options & finding a clinic that's best for you easy! Please keep in mind that you are required to use a clinic in Maven's Performance Network to qualify for coverage, unless you've received an exception to use an out-of-network clinic or provider.

OUR NETWORK

With Maven, we've taken out the guesswork of finding a fertility clinic with outstanding reviews, outcomes and negotiated rates. Every clinic in our high performing network was chosen so that you could have the best experience, receive exceptional care, and achieve your family-building goals. If you still need additional help, you can ask for a referral from our Care Team!

EXCEPTIONS

If you have already had treatment before your fertility benefits launched with Maven or if you live more than 50 miles from a Maven network clinic, you may be eligible for an exception to use an out-of-network provider. To apply for an exception please reach out to your Maven Care Advocate.

YOUR BENEFIT ID

Once Maven is available to you, download the Maven app and activate your Maven Wallet to access your digital Maven Benefit ID. Present your Maven Benefit ID to your clinic, so that the clinic can look up your benefits and coverage through Maven.

Please keep in mind that the network listing is subject to change and that you are required to use a clinic in Maven's Performance Network to qualify for coverage, unless you've received an exception to use an out-of-network clinic or provider. **Once you've made a selection, please message the Maven Care Support Team so that we can refer you to the clinic of your choice.**
